

Tangent were pleased to be announced as winners of the 'Best Candidate Care' Category at this years prestigious Recruiter Awards for Excellence. Tangent contractors work in over 175 countries, some of them considered the most challenging on earth.

The pastoral care element of their assignments is key to Tangent and therefore something we take very seriously as part of our continued Corporate Social Responsibility programme. We believe the judges recognised our attention to detail and liked our innovative Contractor Care and Logistics team.

We were pleased that our continued efforts in this area were recognised and plan to use this success as a spur to innovate further. We most certainly want to continue to be the pace setters for Contractor Care.
